# FISKARS QUALITY

## “Fiskars Quality since 1649”

According to the strict Finnish standards for design, Fiskars has a history of using only exclusive quality, durable materials for the finest end result. Before entering the market, each product stands subject to extensive operational tests, where blade sharpeners and maintenance kits ensure the best performance and preservation of frequently used tools. With peace of mind, Fiskars guarantees the quality of all of its products.

## A lifelong commitment to quality

Quality has always been one of Fiskars' core values, to which the company stands firm on having a holistic approach throughout its entities and throughout the product's lifecycle. Delivering a quality end product is merely the basis that extends into top service levels for customers and consumers alike.

## Anytime.....anywhere

When properly used and maintained, Fiskars garden tools shall remain free of defects in material and workmanship. Any exception to the rule will simply be repaired, replaced or substituted by a product of equal value. Replacement tools or spare parts are offered when returning the tool to the retailer, or contacting the local customer service department.

# A QUALITY STORY FROM 1649

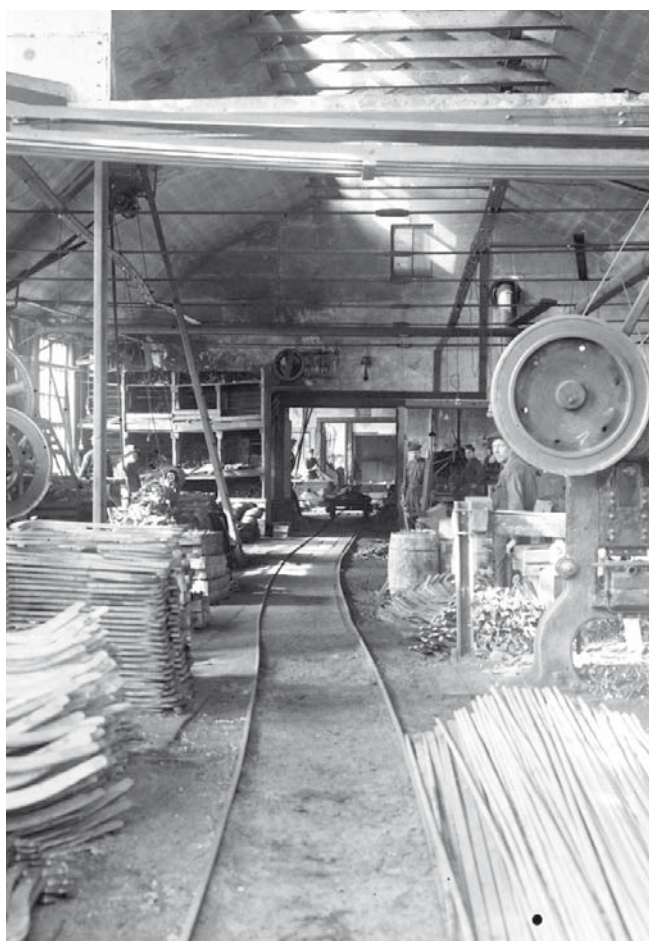

**In 1649 Peter Thorwöste was granted permission to manufacture cast iron and forged products in a small Finnish village called Fiskars. His company soon became famous for high quality steel and steel products.**

In 1967 Fiskars launched its iconic orange-handled scissors, pioneering a revolutionary manufacturing process, ergonomic handles and innovative blades that offered precision, comfort and durability far superior to its peers. Nowadays a must-have in households worldwide, the orange scissors are symbolic to Fiskars commitment to exclusive quality and innovative design.

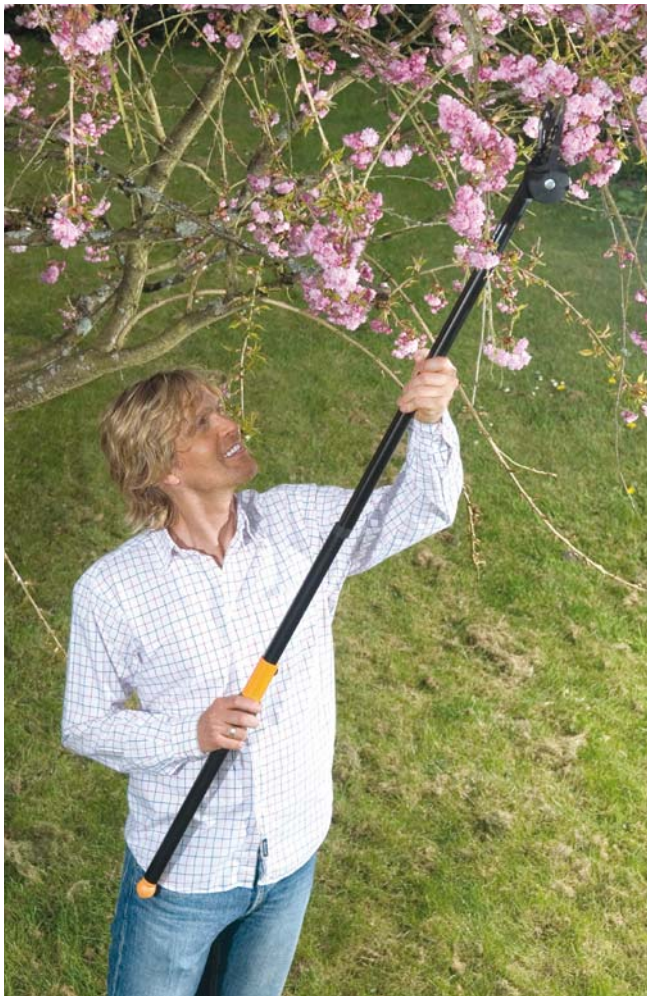

Today one of the Western world's oldest companies, Fiskars has grown into a multinational corporation, present in more than 40 countries on four continents. The company's roots and soul can still be found in Fiskars village, where, some 10 kilometers away, garden tools are manufactured according to its strict historic quality standards.

Fiskars ergonomic, lightweight, yet powerful garden tools are designed to reduce strain and fatigue, and to ensure green fingered users enjoy the ultimate gardening experience in today's hectic lifestyle: less effort required means more time to enjoy!

This has resulted in a steady increase in market share and positioned Fiskars as a top-selling brand with a global presence; number one in hand operated garden tools in North America, Australia and much of Europe.

# PACKAGING

## Inside the packaging

Inside the packaging there is further information to help you get to grips with your new tool.

## Product Names

Fiskars products are named using letters and numbers. The letter refers to the product and the number represents which of our Supreme, Dynamic and Essential range it belongs to.

### Letter

P – Pruner  
L – Lopper  
W – Weeder  
S – Spade

### Number

Essential: 01 - 39  
Dynamic: 40 - 79  
Supreme: 80 - 100+

P26

## Supreme Dynamic Essential

All Fiskars products are ranked as either Supreme, Dynamic or Essential. This is represented on our packaging numerically and through colour coding in the top right hand corner.

Supreme    Dynamic    Essential

## Product Technology

This is where we list our award winning technology. Fiskars garden tools have long been recognised for their superior quality, design and innovation.

PowerGear™

PowerStep™

PowerReel™

## Pictograms

Product benefits and features are visually described using icons.

### The icons fall into 3 categories:

1. Usage – what the product should be used for
2. Material – what the product is made of
3. Features – what defining features the product has

Usage

Features

# PRUNERS

Fiskars pruners are ergonomically designed for comfort and ease of use and are recognised as best in category by many gardeners and industry experts for value and performance. Their ergonomic handles are made of extra durable synthetic materials and the stainless steel blades are secured by an easily accessible locking mechanism when the pruner is not in use.

# LOPPERS

Fiskars loppers are suitable for all kinds of garden cutting tasks with a capacity of up to Ø 55 mm. The range includes different models for different users, unique materials and patented mechanisms. Fiskars loppers are designed to be lightweight, efficient and comfortable to use.

# PowerStep™

## Anvil Lopper L85

Article No 112850

### Product benefits

- < Handles made from FiberComp™ to make them extremely lightweight and strong
- < SoftGrip™ covered handles for increased comfort
- < Intelligent PowerStep™ mechanism allows users to cut thicker branches in one, two or three steps
- < Non stick PTFE coating on the upper blade reduces friction and makes cutting and cleaning easier
- < Anvil blade made of FiberComp™ both stabilises and facilitates cutting of hard, dry wood

# PowerGear™

## Bypass Lopper, Hook Head (L) L78

Article No 112590

### Product benefits

- < Handles made from FiberComp™ to make them extremely lightweight and strong
- < SoftGrip™ covered handles for increased comfort
- < Patented PowerGear™ mechanism makes the cutting 3 times easier compared to standard mechanisms
- < Upper blade made from high quality hardened carbon steel
- < Non stick PTFE coating on upper blade to reduce friction and make cutting and cleaning easier
- < Lower cutting blade is curved for optimal catch

## Anvil Lopper (L) L77

Article No 112580

### Product benefits

- < Handles made from FiberComp™ to make them extremely lightweight and strong
- < SoftGrip™ covered handles for increased comfort
- < Patented PowerGear™ mechanism makes the cutting 3 times easier compared to standard mechanisms
- < Upper blade made from high quality hardened carbon steel ensuring that they can be sharpened really sharp
- < Non stick PTFE coating on upper blade to reduce friction and make cutting and cleaning easier
- < Anvil blade made from cast aluminium enables easier cutting of hard, dry wood

# UNIVERSAL CUTTERS

Fiskars Universal Garden Cutters are multi-use tools that allow accessibility to tree crowns and dense bushes, enabling the gardener to trim overhead without needing a ladder or at ground level without bending or kneeling. Activate the great cutting power with a slide of the orange handle, or when used at maximum height, with a pull of the orange end knob. The adjustable head and the lightweight cutting mechanism helps to ensure fast, easy and safe pruning.

# REEL MOWER

Reel Mowers promote greener, healthier lawns by cutting each blade of grass cleanly with a scissor like action. This minimises moisture loss and exposure to disease. The Reel Mower lets you cut grass without noise, uncomfortable vibrations and the hazards associated with power driven rotary blades. It is also the most environmentally friendly way to cut your lawn.

# WEED PULLERS

The Fiskars Weed Puller is a great invention for removing weeds such as dandelions. Its simple design removes the need for digging, bending or the use of chemicals. Its deep reaching claws grab the root from all directions and remove the weed cleanly, removing only a small amount of soil.

## Weed Puller

## Weed Puller Telescopic W82

Article No 139920

Product benefits

- < Four deep-reaching stainless steel claws grab the root efficiently
- < Ejection system helps to release weed after pulling
- < Eco-friendly weeding without the use of chemicals
- < Allows the gardener to work in an upright position to prevent muscle strain and backache
- < Telescopic handle can be adjusted up to 1190 mm

## Weed Puller W52

Article No 139910

Product benefits

- < Four deep-reaching stainless steel claws grab the root efficiently
- < Ejection system helps to release weed after pulling
- < Eco-friendly weeding without the use of chemicals
- < Allows the gardener to work in an upright position to prevent muscle strain and backache

# SPADES

Fiskars wanted to take the hard work out of digging so we've designed a range of ergonomic spades with features such as angled heads and telescopic handles that make lighter work of moving earth. Durable hardened boron steel blades are folded at the top to create a stepping surface for additional leverage. Good design, great materials and ergonomic grip make spade work a breeze.

# GARDEN DRILL

The Fiskars Garden drill is not only a useful construction tool it is also makes many everyday garden tasks simpler. It is the best tool for the job when planting flowers or bushes and also when aerating and fertilizing the ground. It comes in three sizes so you can pick the right size to suit specific garden tasks.

## Fiskars QuikDrill™

QuikDrill S	Article No 134710	Product benefits
 		<ul style="list-style-type: none"> <li>&lt; For planting bulbs, aerating and fertilizing soil and installing small posts</li> <li>&lt; Drills a smooth edged hole without getting stuck on small stones or roots</li> <li>&lt; Handle made from FiberComp™ (a fiberglass reinforced polyamide) to make it extremely strong</li> <li>&lt; Steel tube shaft for maximum strength</li> <li>&lt; Dual cutting action with two optimally angled and sharpened blades</li> <li>&lt; Plus Parts are attached to the shaft with screws</li> <li>&lt; Working diameter 100mm</li> </ul>
QuikDrill M	Article No 134720	Product benefits
 		<ul style="list-style-type: none"> <li>&lt; For perennial planting, aerating and mixing compost and installing medium sized posts</li> <li>&lt; Drills a smooth edged hole without getting stuck on small stones or roots</li> <li>&lt; Handle made from FiberComp™ (a fiberglass reinforced polyamide) to make it extremely strong</li> <li>&lt; Steel tube shaft for maximum strength</li> <li>&lt; Dual cutting action with two optimally angled and sharpened blades</li> <li>&lt; Plus Parts are attached to the shaft with screws</li> <li>&lt; Working diameter 150mm</li> </ul>
QuikDrill L	Article No 134730	Product benefits
 		<ul style="list-style-type: none"> <li>&lt; For planting hedges and trees, drilling a compost holes and installing large posts</li> <li>&lt; Drills a smooth edged hole without getting stuck on small stones or roots</li> <li>&lt; Handle made from FiberComp™ (a fiberglass reinforced polyamide) to make it extremely strong</li> <li>&lt; Steel tube shaft for maximum strength</li> <li>&lt; Dual cutting action with two optimally angled and sharpened blades</li> <li>&lt; Plus Parts are attached to the shaft with screws</li> <li>&lt; Working diameter 200mm</li> </ul>

## Plus Parts

- < Switch easily between different garden tasks thanks to Fiskars QuikDrill Plus Parts
- < The blades come in 3 sizes and can be combined with any Fiskars QuikDrill shaft
- < The interchangeable blades extend the usage of the original Fiskars QuikDrill to versatile garden tasks from the perennial planting to aerating soil

Plus Parts in 3 different sizes:  
 134717 QuikDrill PlusPart S  
 134727 QuikDrill PlusPart M  
 134737 QuikDrill PlusPart L

# RAKES

Fiskars produce a wide range of rakes for different purposes. Raking, levelling soil and preparing beds for sowing requires the right tool to give new plants the right start in the growing season. Fiskars exchangeable rake system is easy to transport and store and the durable plastic heads are rust free and easy to clean.

# Garden Light

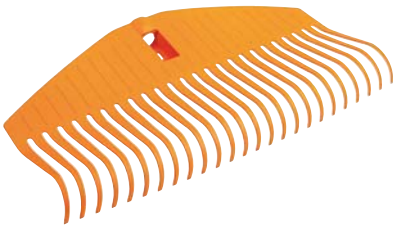

<b>Iron Rake</b>	Article No <b>135510</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Lightweight rake for moving and smoothing down soil</li> <li>&lt; 14 tines of hardened carbon steel</li> <li>&lt; Plastic coated shaft of hardened aluminium</li> <li>&lt; Drop shaped soft grip handle for optimal grip</li> <li>&lt; Hanging loop for easy storage</li> </ul>

# In-Lock

<b>Universal Rake With Sliding Wings</b>	Article No <b>135050</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For raking long, loose grass and for working with soil</li> <li>&lt; Strong, durable aluminium handle</li> <li>&lt; FiberComp™ head is lightweight, does not corrode and does not damage the soil</li> <li>&lt; 12 tines equipped with drag and slide wings</li> <li>&lt; Wings easy to attach and remove</li> </ul>

<b>Large Leaf Rake</b>	Article No <b>135010</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Wide rake for working on larger grounds</li> <li>&lt; Strong, durable aluminium handle with no harmful splinters</li> <li>&lt; Improved geometry of teeth prevents branches and leaves from getting caught</li> <li>&lt; PBT head is durable, but flexible. Each prong has a spring action</li> </ul>

<b>Leaf Rake</b>	Article No <b>135020</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Strong, durable aluminium handle</li> <li>&lt; 25 long, elastic and sturdy teeth for the efficient raking of lawns</li> <li>&lt; PBT head is durable, but flexible. Each tine has a spring action</li> </ul>

<p><b>Small Leaf Rake</b></p>	<p>Article No <b>135030</b></p>	<p>Product benefits</p>
 		<ul style="list-style-type: none"> <li>&lt; For use in difficult to access places, between plants and under bushes</li> <li>&lt; Strong, durable aluminium handle</li> <li>&lt; 7 long and elastic teeth</li> <li>&lt; PBT head is durable, but flexible. Each tine has a spring action</li> </ul>
<p><b>Universal Rake</b></p>	<p>Article No <b>135060</b></p>	<p>Product benefits</p>
 		<ul style="list-style-type: none"> <li>&lt; For raking long, loose grass and for working with soil</li> <li>&lt; Strong, durable aluminium handle</li> <li>&lt; FiberComp™ head is lightweight, does not corrode or damage the soil</li> </ul>  <p>reddot design award</p>
<p><b>Handle</b></p>	<p>Article No <b>135000</b></p>	<p>Product benefits</p>
 		<ul style="list-style-type: none"> <li>&lt; Can be used with all In-Lock rakes</li> <li>&lt; Aluminium handle with hanging hole for convenient storage</li> </ul>

# FISKARS QUIKFIT

Fiskars QuikFit™ is a range of products with interchangeable heads and handles for a variety of garden tasks from cutting to cultivating and from raking to snow care. The Fiskars QuikFit™ locking mechanism allows gardener to lock, unlock or eject easily the heads in one swift movement.

## Cultivator Heads

3 Prong Cultivator	Article No 136511	<p>Product benefits</p> <ul style="list-style-type: none"> <li>&lt; For cultivating, scarifying, aerating and breaking up soil</li> <li>&lt; Suitable for seed bed preparation and maintenance</li> <li>&lt; Blade of hardened carbon steel</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>
3 Prong Hoe	Article No 136512	<p>Product benefits</p> <ul style="list-style-type: none"> <li>&lt; Dual tool for cultivating, scarifying, aerating and breaking up soil</li> <li>&lt; Suitable for seed bed preparation and maintenance</li> <li>&lt; Blade of hardened boron steel</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>
Push-Pull Weeder	Article No 139970	<p>Product benefits</p> <ul style="list-style-type: none"> <li>&lt; Useful for weeding as it loosens the soil simply by pushing and pulling back and forth</li> <li>&lt; Hardened boron steel head</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>
Lawn Spiker	Article No 136524	<p>Product benefits</p> <ul style="list-style-type: none"> <li>&lt; Used for aerating smaller, narrower lawns. Allows nutrients to penetrate the lawn and helps seed, fertiliser, water, air and light to reach the grass roots</li> <li>&lt; Hardened steel blades</li> <li>&lt; Can be used with all standard shafts</li> </ul>
Hoe	Article No 136503	<p>Product benefits</p> <ul style="list-style-type: none"> <li>&lt; Efficient tool for removing weeds between rows of plants or breaking up the soil</li> <li>&lt; Blade of stainless steel</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>
3 Function Hoe	Article No 136513	<p>Product benefits</p> <ul style="list-style-type: none"> <li>&lt; For working around stems and in narrow spaces</li> <li>&lt; Blade is sharpened on 3 sides to assist cultivating at different angles</li> <li>&lt; Blade of hardened boron steel</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>

<b>Dutch Hoe (130mm)</b>	Article No 136502	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Sharp, ground weeding blade for removing weeds, breaking up soil, creating seed rows or removing moss from patios</li> <li>&lt; Blade of hardened boron steel</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>
<b>Grubber</b>	Article No 136517	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For cultivating and aerating garden flower beds</li> <li>&lt; Blade of hardened carbon steel</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>

## Rake Heads

<b>Soil Rake (14 Prongs)</b>	Article No 135511	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For raking, levelling or smoothing seed beds which cover a wider area</li> <li>&lt; 14 spikes of hardened carbon steel</li> <li>&lt; Can be used with all standard shafts</li> </ul>
<b>Soil Rake (16 Prongs)</b>	Article No 135512	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For raking, levelling or smoothing seed beds which cover a wider area</li> <li>&lt; 16 spikes of hardened carbon steel</li> <li>&lt; Can be used with all standard shafts</li> </ul>
<b>Leaf Rake (Small)</b>	Article No 135551	Product benefits
		
		<ul style="list-style-type: none"> <li>&lt; Convenient small leaf rake for clearing around narrow beds and borders</li> <li>&lt; Tines work in a pulling direction providing more comfort with less effort</li> <li>&lt; 11 soft and flexible tines of high quality PBT plastic that will withstand bending</li> <li>&lt; Can be used with all standard shafts</li> </ul>

<p><b>Leaf Rake (22 Prongs)</b></p>	<p>Article No <b>135201</b></p>	<p>Product benefits</p>
		<ul style="list-style-type: none"> <li>&lt; For removing loose moss and grass cuttings from the lawn</li> <li>&lt; 22 flexible steel prongs</li> <li>&lt; Can be used with all standard shafts</li> </ul>
<p><b>Leaf Rake (Large)</b></p>	<p>Article No <b>135013</b></p>	<p>Product benefits</p>
		<ul style="list-style-type: none"> <li>&lt; Wide rake for gathering fallen leaves and grass cuttings</li> <li>&lt; Tines work in a pulling direction providing more comfort with less effort</li> <li>&lt; 25 soft and flexible tines of high quality PBT plastic that will withstand bending</li> <li>&lt; Can be used with all standard shafts</li> </ul>
<p><b>Aerator Rake (Single Edge)</b></p>	<p>Article No <b>135513</b></p>	<p>Product benefits</p>
		<ul style="list-style-type: none"> <li>&lt; For removing moss and thatch from lawn areas</li> <li>&lt; Hardened carbon steel head</li> <li>&lt; Can be used with all standard shafts</li> </ul>
<p><b>Gather Rake</b></p>	<p>Article No <b>135514</b></p>	<p>Product benefits</p>
		<ul style="list-style-type: none"> <li>&lt; Wide rake for gathering leaves and cutting waste from lawn areas</li> <li>&lt; Hardened carbon steel head</li> <li>&lt; Can be used with all standard shafts</li> </ul>
<p><b>Rose Rake</b></p>	<p>Article No <b>135501</b></p>	<p>Product benefits</p>
		<ul style="list-style-type: none"> <li>&lt; Unique head shape allows the gardener to work between plants and stems without damaging the plants</li> <li>&lt; Ideal for narrow bed layouts</li> <li>&lt; 10 teeth of hardened boron steel</li> <li>&lt; Can be used with all standard shafts</li> </ul>

<b>Universal Rake</b>	Article No 135051	Product benefits
 		<ul style="list-style-type: none"> <li>&lt; For raking and clearing long loose grass and for working the soil</li> <li>&lt; Also for making planting beds by levelling the ground and sand and packing down the soil</li> <li>&lt; The essential tool for finishing the surface before sowing seeds</li> <li>&lt; 12 FiberComp™ teeth designed at a specific angle to help with ergonomic posture</li> <li>&lt; Can be used with all standard shafts</li> </ul>

## Edgers and Knife Heads

<b>Patio Knife</b>	Article No 136521	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Ideal tool for removing grass, moss and weeds from between slabs, block paving, wall corners and steps</li> <li>&lt; Blade of hardened boron steel</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>

<b>Dual Wheel Rotary Lawn Edger</b>	Article No 136523	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Sharp blades cut off any over hanging grass smoothly for clean edges</li> <li>&lt; Dual wheel helps to shape the surface or edges perfectly</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>

<b>Lawn Edge Trimmer</b>	Article No 136526	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For clearing the space between the lawn and hard surfaces by stepping on the blade and driving it deep into the lawn</li> <li>&lt; For edging the borders</li> <li>&lt; Hardened boron steel head with flat top</li> <li>&lt; Can be used with all standard and small shafts</li> </ul>

## Nursery Tool Heads

Weed Extractor	Article No 137522	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For removing weeds such as dandelions and burdocks</li> <li>&lt; Ideal for narrow bed layouts</li> <li>&lt; Boron steel head</li> <li>&lt; Can be used with small and medium shafts</li> </ul>
Standard Fork	Article No 137552	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For transplanting, cultivating and weeding</li> <li>&lt; Boron steel head</li> <li>&lt; Can be used with small and medium shafts</li> </ul>
Wire Fork	Article No 137542	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For transplanting, cultivating and weeding</li> <li>&lt; Carbon steel head</li> <li>&lt; Can be used with small and medium shafts</li> </ul>
Trowel	Article No 137512	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For planting and transplanting</li> <li>&lt; Boron steel head</li> <li>&lt; Can be used with small and medium shafts</li> </ul>
Angled 3 Prong Cultivator	Article No 136515	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For loosening and aerating plant beds to optimise nutrient distribution</li> <li>&lt; Tool design protects plants roots</li> <li>&lt; Carbon steel head</li> <li>&lt; Can be used with small and medium shafts</li> </ul>
3 Prong Cultivator	Article No 136516	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For loosening and aerating plant beds to optimise nutrient distribution</li> <li>&lt; Tool design protects plants roots</li> <li>&lt; Carbon steel head</li> <li>&lt; Can be used with small and medium shafts</li> </ul>

		<ul style="list-style-type: none"> <li>&lt; Versatile use on patios and for removing grass, moss and weeds from between tiles and slabs</li> <li>&lt; Can also be used to cultivate plant beds</li> <li>&lt; Boron steel blades with carbon steel thong</li> <li>&lt; Can be used with small and medium shafts</li> </ul>

<b>Double Hoe</b>	Article No <b>137572</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Versatile use with dual functionality</li> <li>&lt; For breaking up soil, cultivating plant beds and weeding</li> <li>&lt; Boron steel blades with carbon steel thong</li> <li>&lt; Can be used with small and medium shafts</li> </ul>

## Path Cleaning

<b>Patio Broom</b>	Article No <b>135531</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For sweeping large areas on terraces and patios</li> <li>&lt; Wide scrubbing brush with robust bristles</li> <li>&lt; Body material of PP plastic</li> <li>&lt; Can be used with all standard shafts</li> </ul>

<b>Paving Brush</b>	Article No <b>135522</b>	Product benefits
 <div style="text-align: right; margin-top: 10px;"></div>		<ul style="list-style-type: none"> <li>&lt; For removing moss and weeds from between paving slabs</li> <li>&lt; Steel bristles to scrub paving and slabs</li> <li>&lt; Additional front blade to remove tight moss and dirt</li> <li>&lt; Lightweight FiberComp™ construction which is more durable and resistant to moisture</li> </ul>

<b>Snow Pusher</b>	Article No <b>143210</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Ideal for clearing snow from steps and patios</li> <li>&lt; Scoop of PP plastic with aluminium edge</li> </ul>

# Tree Care

<b>Curved Saw</b>	Article No <b>136527</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Pull saw with branch hook</li> <li>&lt; Designed for reaching tasks - suitable for use with the QuikFit™ Telescopic Shafts 136032 and 136042</li> <li>&lt; Hook end blade ensures steadiness and keeps the saw from slipping, whilst the lower cutting knife ensures a clean and precise cut from below</li> <li>&lt; FiberComp™ slider and adaptor</li> <li>&lt; Hardened steel blade. Length 360mm</li> <li>&lt; Steel cutting knife</li> </ul>
<b>Straight Saw</b>	Article No <b>136528</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For sawing tasks in the garden</li> <li>&lt; Specifically designed for use with the 30cm Handle 136012</li> <li>&lt; FiberComp™ slider and adaptor</li> <li>&lt; Hardened steel blade. Length 345mm</li> </ul>
<b>Fruit Picker</b>	Article No <b>136950</b>	Product benefits
 <div style="text-align: right; margin-top: 10px;">  </div>		<ul style="list-style-type: none"> <li>&lt; Broad opening, optimal design which directs the fruit to the end of the tips for easy pulling from the branch</li> <li>&lt; Cotton bag, which can be removed for washing</li> <li>&lt; FiberComp™ lightweight design for added durability</li> <li>&lt; Can be used with regular or telescopic shafts</li> </ul>

# Shafts

<b>Telescopic Graphite Shaft</b>	Article No <b>136032</b>	Product benefits
<div style="display: flex; gap: 5px; margin-bottom: 10px;">    </div> 		<ul style="list-style-type: none"> <li>&lt; Especially designed for hard to reach tasks in the garden with a reach of up to 6m</li> <li>&lt; A unique automatic lock makes the tool ready to use in seconds</li> <li>&lt; Dual locking system for maximum safety</li> <li>&lt; Lightweight aluminium</li> </ul>
<b>Medium Telescopic Shaft</b>	Article No <b>136042</b>	Product benefits
<div style="display: flex; gap: 5px; margin-bottom: 10px;">    </div>  <div style="text-align: right; margin-top: 10px;">  </div>		<ul style="list-style-type: none"> <li>&lt; Especially designed for hard to reach tasks in the garden with a reach of up to 4m</li> <li>&lt; A unique automatic lock makes the tool ready to use in seconds</li> <li>&lt; Dual locking system for maximum safety</li> <li>&lt; Lightweight aluminium</li> <li>&lt; Fits conveniently into most cars</li> </ul>

<b>Terracotta Shaft</b>	Article No 136002	Product benefits
 		<ul style="list-style-type: none"> <li>&lt; Tear drop profile shape hardened aluminium shaft with SoftGrip™ handle for optimum comfort</li> <li>&lt; Hanging loop for easy storage</li> <li>&lt; Terracotta painted shaft</li> <li>&lt; A unique automatic lock makes the tool ready to use in seconds</li> </ul>
<b>Graphite Shaft</b>	Article No 136001	Product benefits
 		<ul style="list-style-type: none"> <li>&lt; Tear drop profile shape hardened aluminium shaft with SoftGrip™ handle for optimum comfort</li> <li>&lt; Hanging loop for easy storage</li> <li>&lt; Graphite painted shaft</li> <li>&lt; A unique automatic lock makes the tool ready to use in seconds</li> </ul>
<b>Medium Graphite Shaft</b>	Article No 136022	Product benefits
 		<ul style="list-style-type: none"> <li>&lt; Shorter shaft can be used with nursery tools, cultivators and hoes</li> <li>&lt; Tear drop profile shape featuring a mid position sleeve and SoftGrip™ handle for optimum comfort</li> <li>&lt; Graphite painted shaft</li> <li>&lt; A unique automatic lock makes the tool ready to use in seconds</li> </ul>
<b>Small Handle</b>	Article No 136012	Product benefits
 		<ul style="list-style-type: none"> <li>&lt; Handle for use with Fiskars QuikFit™ Nursery Tools with a sturdy and comfortable grip</li> <li>&lt; Aluminium tear drop shaped frame with FiberComp™ and a SoftGrip™ handle</li> <li>&lt; A unique automatic lock makes the tool ready to use in seconds</li> </ul>

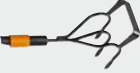

## Adaptor

<b>Universal Adaptor</b>	Article No 130000	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For connecting a variety of interchangeable heads produced by other manufacturers</li> <li>&lt; Lightweight FiberComp™</li> </ul>

**reddot design award**  
winner 2010

Fiskars QuikFit™ Locking system - winner of the Red Dot Award: Product Design 2010. The QuikFit™ mechanism ensures effortless change of heads for rakes, cultivators, hoes, weeders, saws etc. The heads attach to the shaft and the device is immediately ready for your use.

# KIDS' TOOLS

Gardens are the perfect place for kids to experience the sheer joy of planting and caring for nature. They can see for themselves how they can make a positive influence on the world around them. We think it's so important for children to garden that we've made tools just for them.

# WEDGES

Fiskars provides the right tool for all wood preparation tasks. Our helicoidally-shaped log splitter (the third minimal surface to be discovered by Jean Baptiste Meusnier in 1776), is small enough to fit in your pocket and designed to stop wood chips flying around during splitting.

# Wedges

<b>Splitting Wedge</b>	Article No <b>120020</b>	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Helicoidally shaped which makes the wood burst more easily therefore reducing the need to use several wedges</li> <li>&lt; Rounded head to avoid material fragmentation</li> <li>&lt; Anti return slot</li> <li>&lt; Forged steel</li> </ul>

# EDUCATION

## CHOPPING VS. SPLITTING

**Chopping axe** – The Universal Chopping Axe’s thin, wide edge ensures a clean, easy cut in fresh, resinous wood, like spruce or pine.

**Splitting axe** – The Splitting Axe features a unique cutting edge that easily slices into the wood, which the thick axe blade then pushes apart.

## ANVIL VS. BYPASS

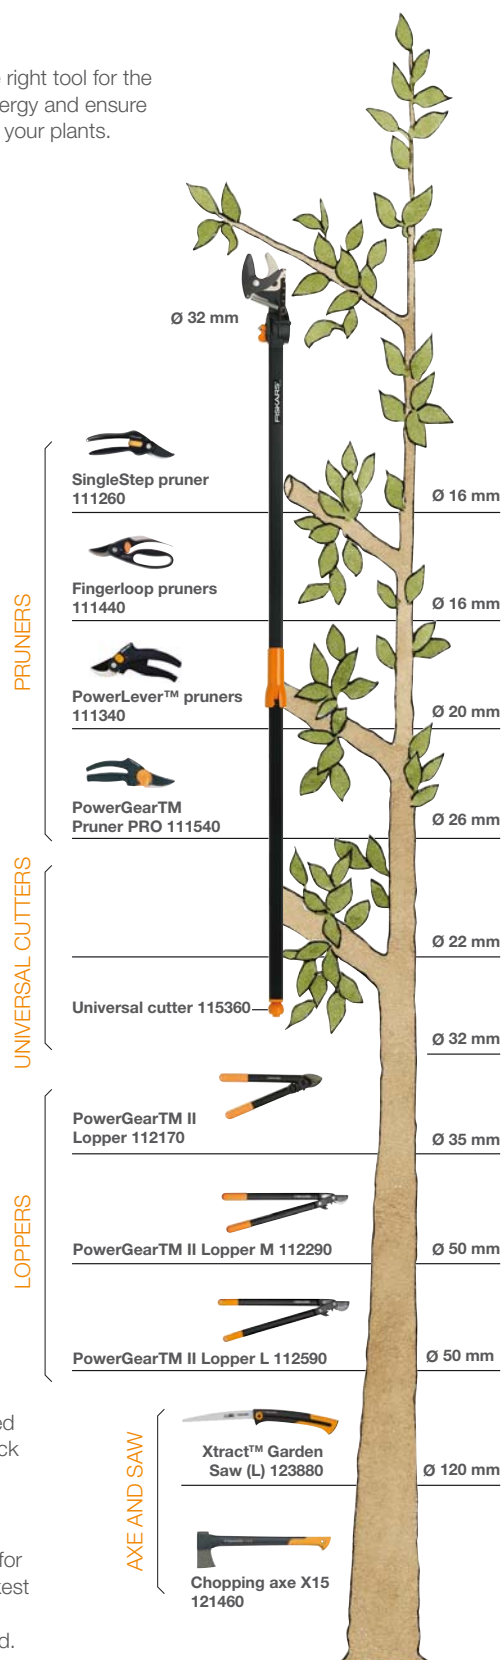

**Bypass:** Both blade and counter blade press into the wood to make a clean cut with less compression damage (cutting blade bypasses counter blade in a scissors-like action). Possible to cut close to the stem. Best suitable for fresh wood.

**Anvil:** Upper blade is forced through the wood with greater pressure as the anvil blade supports the branch and spreads the pressure until the cut is complete. Best suitable for dry or dead wood.

## WHICH TOOL FOR WHICH TASK

By selecting the right tool for the job you save energy and ensure the wellbeing of your plants.

Universal cutters help you reach difficult spots.

Loppers are particularly suited for cutting thicker branches.

The saw is particularly suited for removing thick (over 5 cm) branches.

An axe is good for cutting the thickest branches and splitting firewood.

# PICTOGRAMS

## EaseCut™

**Ease Cut™**  
Indicates how many times the cutting power is multiplied by.

## Usage Area

**Bypass blade**  
For cutting fresh, living growth.

**Anvil blade**  
For cutting dry hard growth.

**Snip blade**  
For cutting thin steel plates, plastic, tube, rope etc.

**Hook Head**  
For heavy cutting of fresh wood.

**Scissor head**  
For precision cutting of fresh wood.

**Splitting axe**  
For easier, faster splitting of wood.

**Chopping axe**  
For easy cutting through fresh, resinous wood.

**Brush hook**  
For trimming undergrowth and even small trees.

**Efficient tothing**  
For cutting new or live wood.

**Fine tothing**  
For a clean cut of dry wood.

## Product Material

**FiberComp™**  
Strong/durable and lightweight properties.

**PBT**  
Lightweight, flexible and hardwearing.

**Boron steel**  
Sharp and durable

**Stainless steel**  
Mechanically strong and corrosion resistant.

**Aluminium**  
Lightweight, strong properties.

**CrMov**  
Highly durable and stays sharp.

**Steel gear mechanism**  
Strong and effective steel mechanism.

**PTFE coating**  
Corrosion resistant, nonstick blade coating.

**Genuine leather**  
Made of tough genuine leather.

**Steel tube**

# Product Features

**Cutting capacity**  
Shows the maximum cutting diameter.

**Spare parts**  
Spare parts are available.

**Plus parts**  
Can be expanded with additional parts.

**Shock-proofed**  
Improves comfort by absorbing the vibrations.

**Softgrip™**  
Comfortable SoftGrip™ handle.

**Power tip**  
Cutting power is distributed evenly.

**Micro tip**  
Thin and sharp blades for precision cutting.

**Safety**  
Loop helps to shield fingers when cutting.

**Telescopic**  
The length of the product can be adjusted.

**Female**  
For female use.

**Male**  
For male use.

**Weather proof**  
Withstands all types of weather.

**Vegetables**  
For cutting and picking vegetables.

**Flowers**  
For cutting flowers.

**Grass**  
For cutting grass.

**Hedges and bushes**  
For cutting hedges and bushes.

**Pot plants**  
For cutting of pot plants.

**Bonsai plants**  
For cutting bonsai plants.

**Herbs**  
For cutting of delicate herbs.

**Fish**  
For cutting fish.

**Hand size**  
Suitable for small hands.

**Ambidextrous**  
For both right-handed and left-handed use.

**Right handed product**  
For right-handed use.

**Grafting**  
For cutting of small side shoots, laterals and pruning of weak growth.

**Carving**  
For peeling bark.

**Grafting**  
For various grafting tasks/

**Sharpening wooden canes**

**Building site**  
For cutting of rockwool and fibers.

**Whittling**  
For whittling wood.

**Fingerloop handle**  
Prevents slipping and protects fingers.

**Cotton & string**  
For cutting cotton and strings.

**Flower stems**  
For cutting flower stems.

**Tight sealing**  
Shaft and blade are fused together for a tight seal.

**Center of gravity**  
Perfectly balanced.

**Strength**  
Withstands hard wear and loads of up to 35 kg loads.

**QuikFit™**  
QuikFit™ system

**Bow Saw teeth**  
For sawing with a push and pull motion.

**Garden Saw teeth**  
For sawing with a pulling motion only.

**Building Saw teeth**  
For sawing with a pulling motion only.

**Wool Saw teeth**  
For sawing with a push and pull motion.

**Grip**  
Ergonomic handle with a firm, non-slip grip.

**Pocket-sized**  
Fits easily into a pocket.

---

#### **Made in Finland**

Founded in the small village of Fiskars, Finland 1649, the company has grown into a large multinational corporation, celebrated for a history of products accommodating the strict Finnish standards for quality and design. Following its tradition to drive innovation of tools that reduce the effort, fatigue and strains so often associated with gardening, Fiskars ergonomic, high performance cutting and landscaping tools are designed to do the hard work, so you don't have to!
